

## **Allen Goldberg**

### **What are your current roles at TI?**

I am currently on the Finance Committee as the Finance Secretary. I previously was on the Board of Directors along with the Membership Committee along being involved with the 70th Anniversary celebration and Strategic Initiative actions.

### **How long have you been a member of TI?**

My family and I have been members at Temple Israel for 10 years.

### **What do you do for work and in your free time?**

I am a software engineering director for a small private company in Waltham. Between work, commuting, and walking my Golden Retriever, Getty, through the streets of Boston. I am on a Vintage Baseball team called Mudville, which travels to different venues to play by 1860s baseball rules (no gloves). We have traveled as close as Georges Island and as far as California.

### **What excites you most about the future of TI?**

Seeing the youth become more and more involved in the leadership and volunteering as part of Temple activities. They are the key to the future and they bring new ideas, new views, and a great amount of energy which is greatly needed as we go forward.
